

Complete EduNex ERP for modern education.

Manage students, staff, admissions, batches, attendance, fees, exams, homework, timetable, library, payroll, communication, reports, and mobile app access from one platform.

All-in-one
Academic, finance, HR, library, reports, and mobile app.

Android + iOS
Student mobile app first, PWA support as an extra option.

Role based
Different accounts for each department and user type.

Cloud ERP
Secure multi-tenant setup for institutes and branches.

1 Daily Operations
Students, staff, batches, subjects, attendance, leave, timetable, and discipline.

2 Finance Control
Fee structures, allocations, receipts, online payments, defaulters, reminders, and reports.

3 Mobile Access
Android and iOS app for students with homework, tests, fees, lectures, and notifications.

Core ERP Modules

EduNex covers the full institute workflow, from student admission to fee collection, teaching, exams, reports, and staff management.

Student Management

- Student profile, contact, parent details, batch assignment, and profile image.
- Admission and student record maintenance.
- Student-wise academic, attendance, fee, and report history.

Batch and Subject Management

- Create batches/classes with schedules and active status.
- Assign subjects to batches.
- Map teachers to subjects and class teacher responsibility.

Attendance Management

- Daily student attendance marking.
- Class teacher-controlled attendance workflow.
- Present/absent summary, attendance percentage, and PDF reports.

Fees and Payments

- Fee categories, structures, due dates, allocations, and student fees.
- Payment ledger, receipts, balance tracking, and recent payments.
- Defaulter reports and WhatsApp/portal reminders.

Online Payment Gateway

- Payment gateway settings for institute accounts.
- Student fee checkout support.
- Receipt download after successful payment.

Reports and Analytics

- Revenue overview, attendance trend, students by batch, and KPIs.
- Attendance PDFs, defaulter PDFs, and student reports.
- Useful dashboards for admin, teacher, student, and super admin.

Academic Features

Teachers and academic heads get a structured workflow for classes, homework, tests, live lectures, timetable, and student progress.

Homework

- Create homework for selected batches and subjects.
- Add due dates and instructions.
- Students can view homework from the mobile app/student portal.

Tests and Exams

- Schedule tests with subject, batch, date, and total marks.
- Fast mark entry for complete batches.
- Publish marks, remarks, and results to students.

Live Lectures

- Create live lecture sessions for selected batches.
- Teacher starts and ends live classes.
- Students access live and ended lecture records from the app.

Timetable

- Build class-wise timetable slots.
- Teachers can view their own schedule.
- Students can view batch timetable from mobile app/student portal.

Leave Management

- Staff leave requests and student leave requests.
- Review, approve, reject, and revert decisions.
- Class teacher/principal/admin review support.

Discipline and Gallery

- Record student discipline details.
- Maintain image gallery for institute updates.
- Students can view gallery and discipline information.

Designed for Academic Clarity

For Principals

Monitor academic progress, students, attendance, leaves, timetable, and reports.

For Teachers

Manage assigned batches, homework, tests, live classes, schedules, and attendance.

For Students

Use the mobile app for attendance, homework, tests, lectures, fees, timetable, and profile.

User Account Details

Every user gets access according to role. This keeps the system simple for users and secure for management.

Account	Main Access	Important Controls
Super Admin	Manage SaaS platform, institutes, subscriptions, and plans.	Onboard institutes, manage global setup, view platform dashboard.
Institute Admin / Owner	Full institute ERP control.	Students, staff, principals, batches, subjects, fees, reports, settings, HR, library, and communication.
Principal	Academic and operational supervision.	Students, attendance, timetable, leaves, discipline, performance, and reports as permitted.
Teacher	Teaching and class workflow.	Assigned batches, subjects, homework, tests, marks, live lectures, schedule, and library access.
Class Teacher	Class ownership and attendance.	Mark attendance for managed class, review student leave, track class metrics.
Receptionist / Accounts	Front office and fee workflow.	Collect fees, manage payment records, receipts, fee reports, and defaulter follow-up.
Staff	Internal staff account.	Profile, attendance, leave, staff chat, schedule, and assigned access.
Student	Mobile app and student portal.	Attendance, homework, tests, fees, receipts, lectures, timetable, leaves, library, profile, gallery, and notifications.

Secure Login

Separate staff and student authentication keeps ERP access organized.

Role Permissions

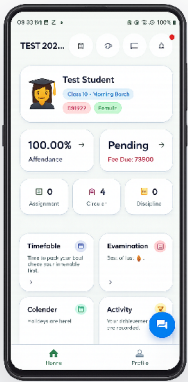

Users see only the modules required for their work.

Institute Isolation

Each institute works inside its own protected data scope.

Mobile App for Android and iOS

The mobile app is a main part of EduNex. Students can access important academic and fee information from their phone. PWA support is available as an additional web option.

Student Dashboard

- Attendance percentage and class status.
- Fee summary and recent payments.
- Quick buttons for every student module.

Academics in App

- Homework, tests, exam marks, remarks, and results.
- Live lectures and lecture records.
- Timetable and daily schedule.

Finance in App

- View assigned fees and balances.
- Pay online where gateway is enabled.
- Download fee receipts.

Student Services

- Leave requests, profile, notifications, library, gallery, and discipline.
- Digital resources and book reservation support.
- Works alongside PWA support for web access.

Mobile-first Student Experience

Android

App access for Android users.

iOS

App access for iPhone users.

Notifications

Homework, test, fee, and institute updates.

PWA Support

Secondary installable web option.

Additional Powerful Modules

EduNex goes beyond basic student and fee management with library, staff HR, payroll, chat, notifications, and institute settings.

Library Management

- Books, categories, authors, publishers, and inventory.
- Issue books, return books, reservations, fines, and reports.
- QR/barcode print support and scan-based search/issue/return workflows.

Digital Library

- Upload digital resources.
- Preview and download resources.
- Role-based access for students and teachers.

Staff HR

- Staff attendance and biometric/location-based attendance support.
- Attendance settings and admin review.
- Staff salary records and payroll generation.

Communication

- Notifications and portal alerts.
- Staff group chat with mentions.
- WhatsApp reminders for pending fee follow-up.

Institute Settings

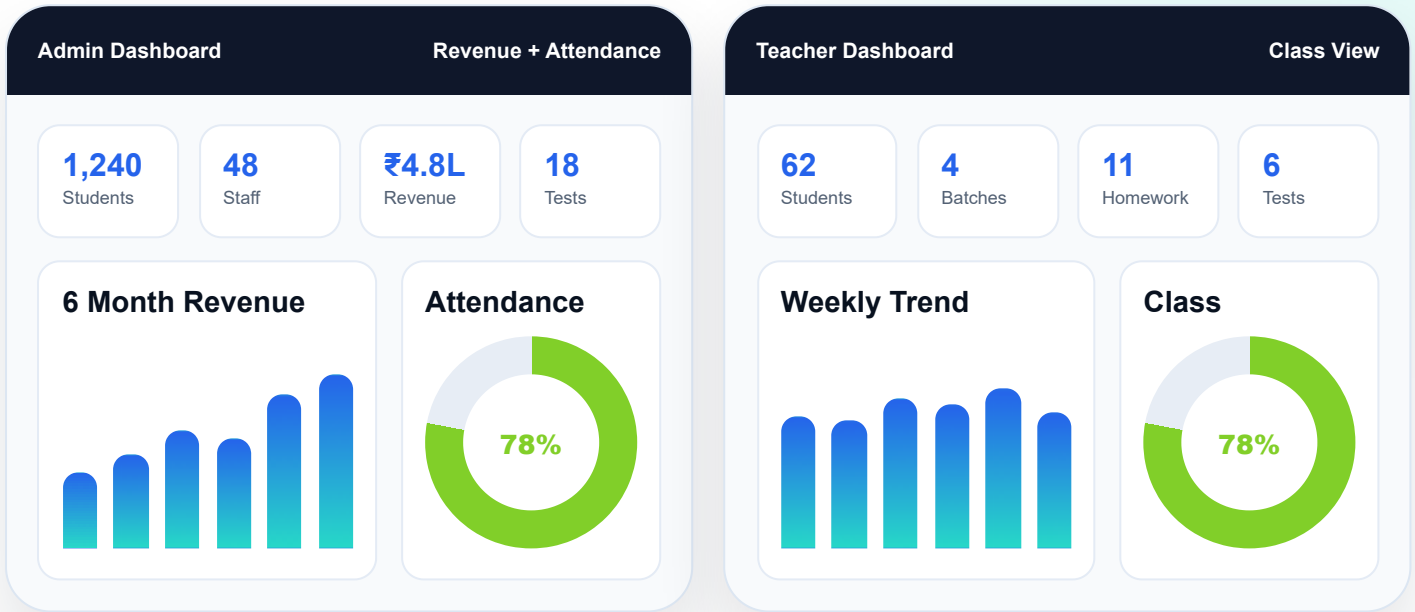

- Institute profile, logo, contact details, and system preferences.
- Feature toggles such as fees, HR, library, and live classes.
- Payment gateway configuration.

Library Reports

- Inventory, issued, returned, overdue, student, staff, fine, and most-borrowed reports.
- Export support where available.
- Clear tracking of library operations.

Dashboard Images and Reporting View

EduNex dashboards are built for quick decisions: revenue, attendance, students, batches, homework, tests, payments, and operational alerts.

Admin Reports

- Revenue, payments, attendance, defaulters, and students.
- PDF export for important reports.

Academic Reports

- Student report, marks, attendance, homework, and test performance.
- Class-wise and batch-wise tracking.

Operational Reports

- Library, staff attendance, payroll, leaves, and fee status.
- Useful for owners and principals.

Security and Reliability

Data Isolation

Each institute's students, staff, fees, and records are separated.

Permissions

Role-based access protects sensitive financial and academic data.

Cloud Ready

Built as SaaS for single or multi-branch education businesses.

Who Can Use EduNex?

Schools

KG to 12 schools, private schools, and academic institutions.

Coaching Centers

Tuition classes, competitive exam centers, and subject academies.

Skill Institutes

Computer, language, creative, technical, and professional training institutes.

Fast Setup Workflow

1. Configure

Add institute profile, logo, contact details, features, and payment settings.

2. Add Users

Create admin, principal, teacher, receptionist, staff, and student accounts.

3. Build Academics

Create batches, subjects, timetable, fee structures, and class teachers.

4. Go Live

Start attendance, fees, homework, tests, library, reports, and mobile app access.

Modernize your institute with EduNex ERP.

Book a demo to see the dashboard, Android/iOS mobile app, finance workflow, academic tools, reports, library, HR, and communication modules.
